ACCOUNTANT'S COMPILATION REPORT

Boeuf River Soil and Water
Conservation District
Rayville, Louisiana

We have compiled the accompanying financial statements of the Boeuf River Soil and Water Conservation District, a component unit of the State of Louisiana, as of and for the year ended June 30, 2010, and the accompanying supplementary information schedule listed in the table of contents, which is presented only for supplementary analysis purposes, in accordance with Statements of Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements and supplementary schedules, information that is the representation of management of the Boeuf River Soil and Water Conservation District. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

Management has elected to omit substantially all of the disclosures required by generally accepted accounting principles. If the omitted disclosures were included in the financial statements, they might influence the user's conclusion about the District's financial position, results of operations, and the changes in fund balance. Accordingly, these financial statements are not designed for those who are not informed about such matters.

Boeuf River Soil and Water Conservation District did not adopt the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, for the year ended June 30, 2010. The effects of this departure from generally accepted accounting principles has not been determined.

|-----------------|---|---|---|---|
| 2009-1 | 2008 | The District's structure is not conducive to adequate internal accounting controls over financial reporting as it relates to compliance with GASB No. 34 disclosures. Currently, their is not an individual within the District that is charged with the governance to assess the impact of the requirements of GASB No. 34. This situation is due to economic and financial constraints. | No | Since it is not economically feasible to employ sufficient personnel to ensure adequate segregation of duties, and since the District is only responsible for issuing a compilation report and are electing not to implement GASB 34, no further action is planned. |
